

19 February 2014

Carlo Triarico  
Presidente Associazione per l'Agricoltura Biodinamica

Buongiorno Carlo,

Thank you so much for your email advising us about your XXXII congress in Florence on 20-23 February 2014.

We share your sentiments in that the times require a deep union and coming together of all biodynamic organisations. In July this year we are celebrating 25 years since the inception of our organisation whose overarching goal continues to be to spread the practice of biodynamics far and wide to enable the production of human and animal food of the highest nutritional value.

We send our very best wishes to all biodynamic farmer and gardener friends for a happy and fruitful year and to the Associazione for an inspiring and successful conference.

Cordiali saluti,

Ray Unger, Chairman
